Hi,

Thank You for purchasing from **UnicDesign**.

How to place your design into mockup:

1. Open the "**Design**" folder.
2. Select the "**Your Design Goes Here (Double-click Layer Thumbnail)**" layer.
3. **Double-click** on this layer thumbnail and a new file will open.
4. In the newly opened file, go to **File > Place Embedded**, select your design and choose "**Place**".
5. Place your design as you like and hit "**Enter**".
6. Go to **File > Save** and design will be automatically placed into a mockup.

Support:

If you need any help with the mockup or got any questions, please contact us via contact form found on our contact page:
